Lockable Thermostat Guard

NOW AVAILABLE

A lockable thermostat guard is now available for the protection of *any* Siemens wall-mounted thermostat. The guard is a plastic, transparent shield with a lockset that prevents tampering with a wall-mounted thermostat's settings. The two-piece thermostat guard has a lockset (with two keys) positioned on the clear plastic top housing. The top housing has ventilation louvers to provide adequate air movement for temperature sensing around the thermostat.

DISCUSSION

The thermostat guard is shipped with two mounting plates. One is a frame made of clear plastic, which is designed for mounting the guard over an existing thermostat. Four screw holes in the frame allow it to be mounted directly to drywall. The opening is 8-1/4" × 4-1/2", which is large enough to be mounted over any Siemens thermostat, eliminating the need to remove the thermostat from the wall. The frame locks into the top housing.

An additional base is included for mounting the thermostat guard to the wall before mounting the thermostat. The base has a 1-1/4" × 1-1/2" opening on centerline for accessing electrical wires or pneumatic tubing connected to the thermostat. Holes are positioned around the opening to accommodate mounting screws of various thermostat base plates. The base has an opening for the lockset to latch onto and secure the guard in place.

The guard can be mounted vertically or horizontally, using either base plate.

The chart below describes the features, functions and benefits of the Lockable Thermostat Guard:

Features	Functions	Benefits
Clear plastic top housing	Permits viewing of thermostat setting without removing the guard.	Unrestricted view of temperature settings
Lock and key set	Prevents tampering with thermostat settings.	Security from unauthorized adjustments
Large mounting frame	Allows retrofitting of guard in existing installations.	Protection for any Siemens thermostat
Large ventilation louvers	Accurate temperature sensing	Occupant comfort

COMPETITIVE ANALYSIS

Manufacturer	Product Number	Size
Johnson Controls	GRD10A-609	7-3/4" × 4-3/4" × 3-1/4"
Invensys	AT-1165	8" × 5-1/2" × 3-1/2"
Honeywell	TG51A 1009	9-3/4" × 7-1/4" × 3-3/8"

ORDERING INFORMATION

Part No.	Description	U.S. List	Canadian List
141-570	Thermostat Guard	\$ 60.61	\$ 92.73

AVAILABILITY
